LEVEL 1		
PREP	<i>Demo on your natural nail</i>	<ul style="list-style-type: none"> Gentle and thorough! Great job!
EXTREME CLEAR OVERLAY	<i>Demo on natural nail</i>	<ul style="list-style-type: none"> Beautiful self-leveling and product control... I would just go a little thicker!
LEVEL 2		
COLOR GRADATION	<i>Demo on a tip</i>	<ul style="list-style-type: none"> Beautiful blending!
GLITTER GRADATION	<i>Demo on a tip</i>	<ul style="list-style-type: none"> Too easy right?
FRENCH TIP	<i>Demo on a tip</i>	<ul style="list-style-type: none"> Wonderful control, and even thickness all around.
PEACOCK	<i>Demo on a tip</i>	<ul style="list-style-type: none"> You totally nailed this one
BORDER & GLITTER LINE	<i>Demo on a tip</i>	<ul style="list-style-type: none"> Dainty and great line control!
LEVEL 3		
MARBLE	<i>Demo on natural nail</i>	<ul style="list-style-type: none"> Good! A little more grey, less white, and just a little less movement... but otherwise very good!
TIE DYEING	<i>Demo on a tip</i>	<ul style="list-style-type: none"> My favorite thus far, I really like how you took on more cloudy shaped marbling. Very well blended.

SMALL FLOWER	<i>Demo on a tip</i>	<ul style="list-style-type: none"> • Pretty! Just make that glitter line even more dainty (thin)!
VARIETY FRENCH	<i>Demo on a tip</i>	<ul style="list-style-type: none"> • Yay! I see the waviness of your French (so many are drawing hearts, hehe)
TIP OVERLAY	<i>Demo on natural nail</i>	<ul style="list-style-type: none"> • Your self-leveling and color control is beautiful. • I think this tip is a little large and causes your tip to fan out. Maybe one size down will make all the difference. Let me know if you need more help with this.
SCULPTURE	<i>Demo on natural nail</i>	<ul style="list-style-type: none"> • The thickness is good! This nail is supported and should last weeks and not break! • Just the free-edge fans out a bit also. When this happens with a free-form extension I would definitely focus on the flash-cure pinch. In the pinch you are going to be able to get the nail as thin as you can, and later file it in more without having to worry about over filing.
