Demo #1 Nail Prep	On a natural nail. Clean even cuticle area. No dust left behind. No skin sticking out on the sidewall, interfering with the application. Shaped to how you prefer. No shine on the surface.	*****
Demo #2 Mega Stick Base Overlay	On a natural nail. Small apex and built nail. Thinner at the tip and apex in the stress area. Even thickness and color application all around the nail. Sidewall application is smooth and straight.	****1/2 a couple of indents in your structure
Demo #3 Platinum Bond Duo Overlay	On a natural nail. Natural apex. Correct thickness all around. Flawless color application w/ clean cuticle application	****1/2
Demo #4 Baby Boomer Gradation	A gentle soft fade from white to nude. Gradation goes up to at least half of the nail.	***** Beautiful!
Demo #5 Stone Marbling	Balance of natural patterns. Soft on the white, super thin cracked lines.	***** This one is the better one out of the 2.
Demo #6 Excel Builder Overlay	On a natural nail. Sculpted apex. Correct thickness all around. Flawless color application w/ clean cuticle application.	****1/2
Demo #7 Free-Form Extension	On a natural nail. Sculpted apex. Correct thickness all around. Smooth shaping & filing. Flawless color & cuticle application.	****1/2
Demo #8 Gelip Extension	On a natural nail. Well blended to the natural nail. No bubbling/"seep-out".	*****

Demo #9 Classic Flannel	Looking for equidistant spacing, wool texture, and straight lines. No over saturation with black.	*****
Demo #10 Raised Fruit	Clear gel should stay within the outline. There should be no white collecting in the center	****1/2 This is beautiful, the clear slightly goes out of the white outline, try grabbing less product to offset this.
Demo #11 Textured Cheetah	Smooth pigment application. Balance in the amount of cheetah prints. Control glitter application.	***** Beautiful!
